

Hi, my name is Colton,

So let's clear the table, and start anew.

"A Rose by Any Other Name Is Just As Sweet"

If you want to label me an anarchist, communist, a red, socialists, blah blah, leftists, I will not stop you.

This Zine served as an introduction. I will attempt to explain more theory in sequels. It is my hope that these zines will inspire you to research a different perspective than perhaps you were raised.

So, it is first a triumph for you to not be afraid of the communist boogie man! When you finally start to research it.... THERE IS SO DAMN MUCH TO LEARN!! It's overwhelming! Insurrection @ppression Labor I.W.M.W. Working Class Proletariat Global ML SYNDICALISM BOURGEOISIE ANTEA Political Compass Tanks DEMOCRATIC SOCIALISTS Soviet May Day ANARCHISM Wage Slavery Maoism Sickie and thammer EGOISM DIALECTICAL MATERIALISM Vanguard Direct Action International INTERSECTIONALITY

Look, I understand. Your entire life you have been fed this idea that a communist or anarchist hides in your closet and at any moment he will strike! You have to be careful! (We actually prefer hiding under your bed. This is a joke of course.)

So you wanna be Commie Scum?
