

THOUGHTS
FROM JANUARY
THAT I HAVEN'T
HAD TIME TO
THINK ABOUT
YET.

As
written on
the notes

Are you going somewhere for MLK Day?

-I had to reschedule my lesson-

I'm not sure yet.

Do you have a boyfriend?

No, I have a girlfriend.

So you might go somewhere then.

See you in two weeks!

 She's home
 As am I

Grh-Grh thing is underrated, it needs to be heard by the masses. I called KLOS, the big rock station in L.A., and they don't have it in their inventory. That's a crime! I'd love to see more Danny Johnson articles

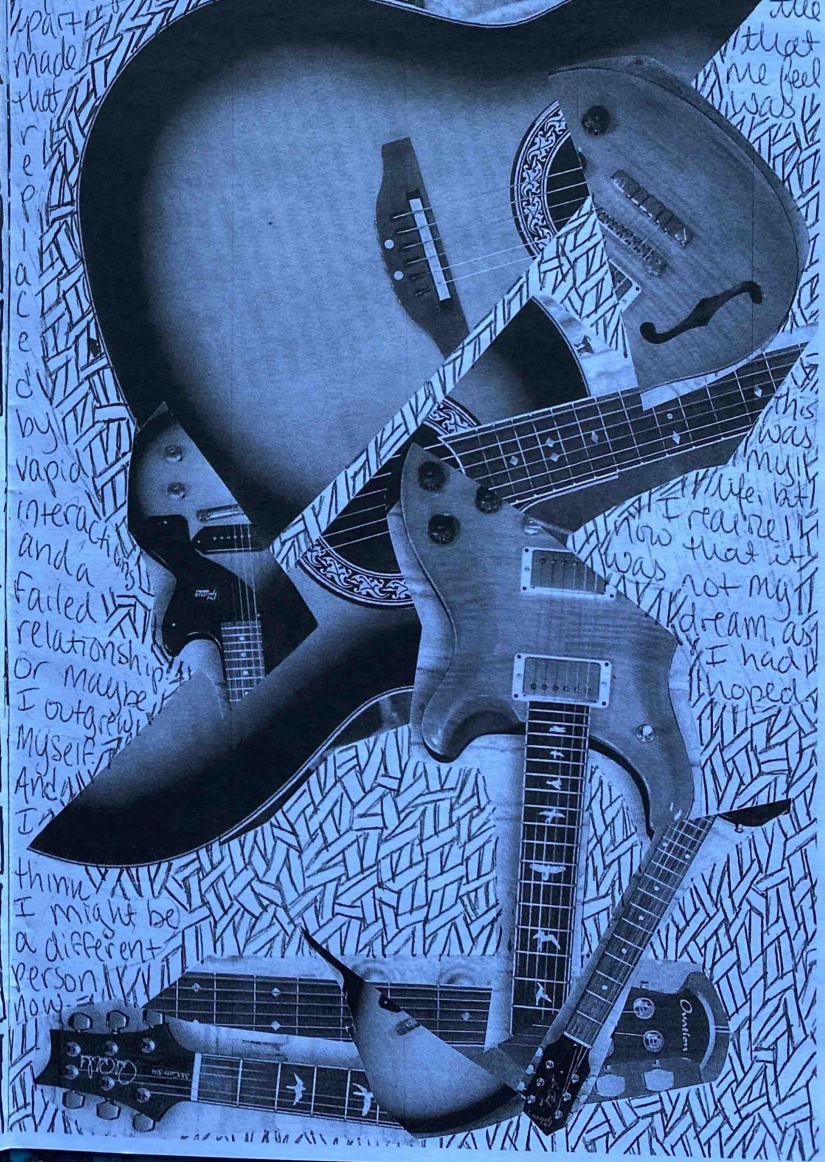

Hang off of me
Because I don't know
If I can stomach it.
And I don't know
If I want to stomach it
ever again.

Empty Strength
Clouded thoughts.
This isn't healthy.

over the course of five years, I managed
to lose the most important
of myself.

part made that re placed by vapid interactions and a failed relationship or maybe I outgrew myself. And I think I might be a different person now.

the that me feel was this was must wife, but I realize now that it was not my dream, as I had hoped.

Piano Lesson

- AFTER THE LAST ONE -

Do you like the "L-Word"?

-I don't like the "L-Word"-
I watch it sometimes.

The new Season is really good.

I'll have to watch it.
-I won't-

Who's your favorite character?

I'm not sure.
-I couldn't name any characters I actually liked-

I like Shame, she aged well.

"Shameless" also has some good gay & lesbian stories. Do you watch "Shameless"?

I think I'm funny, but I don't like acting, improv, or putting myself out there.

But I'm trying

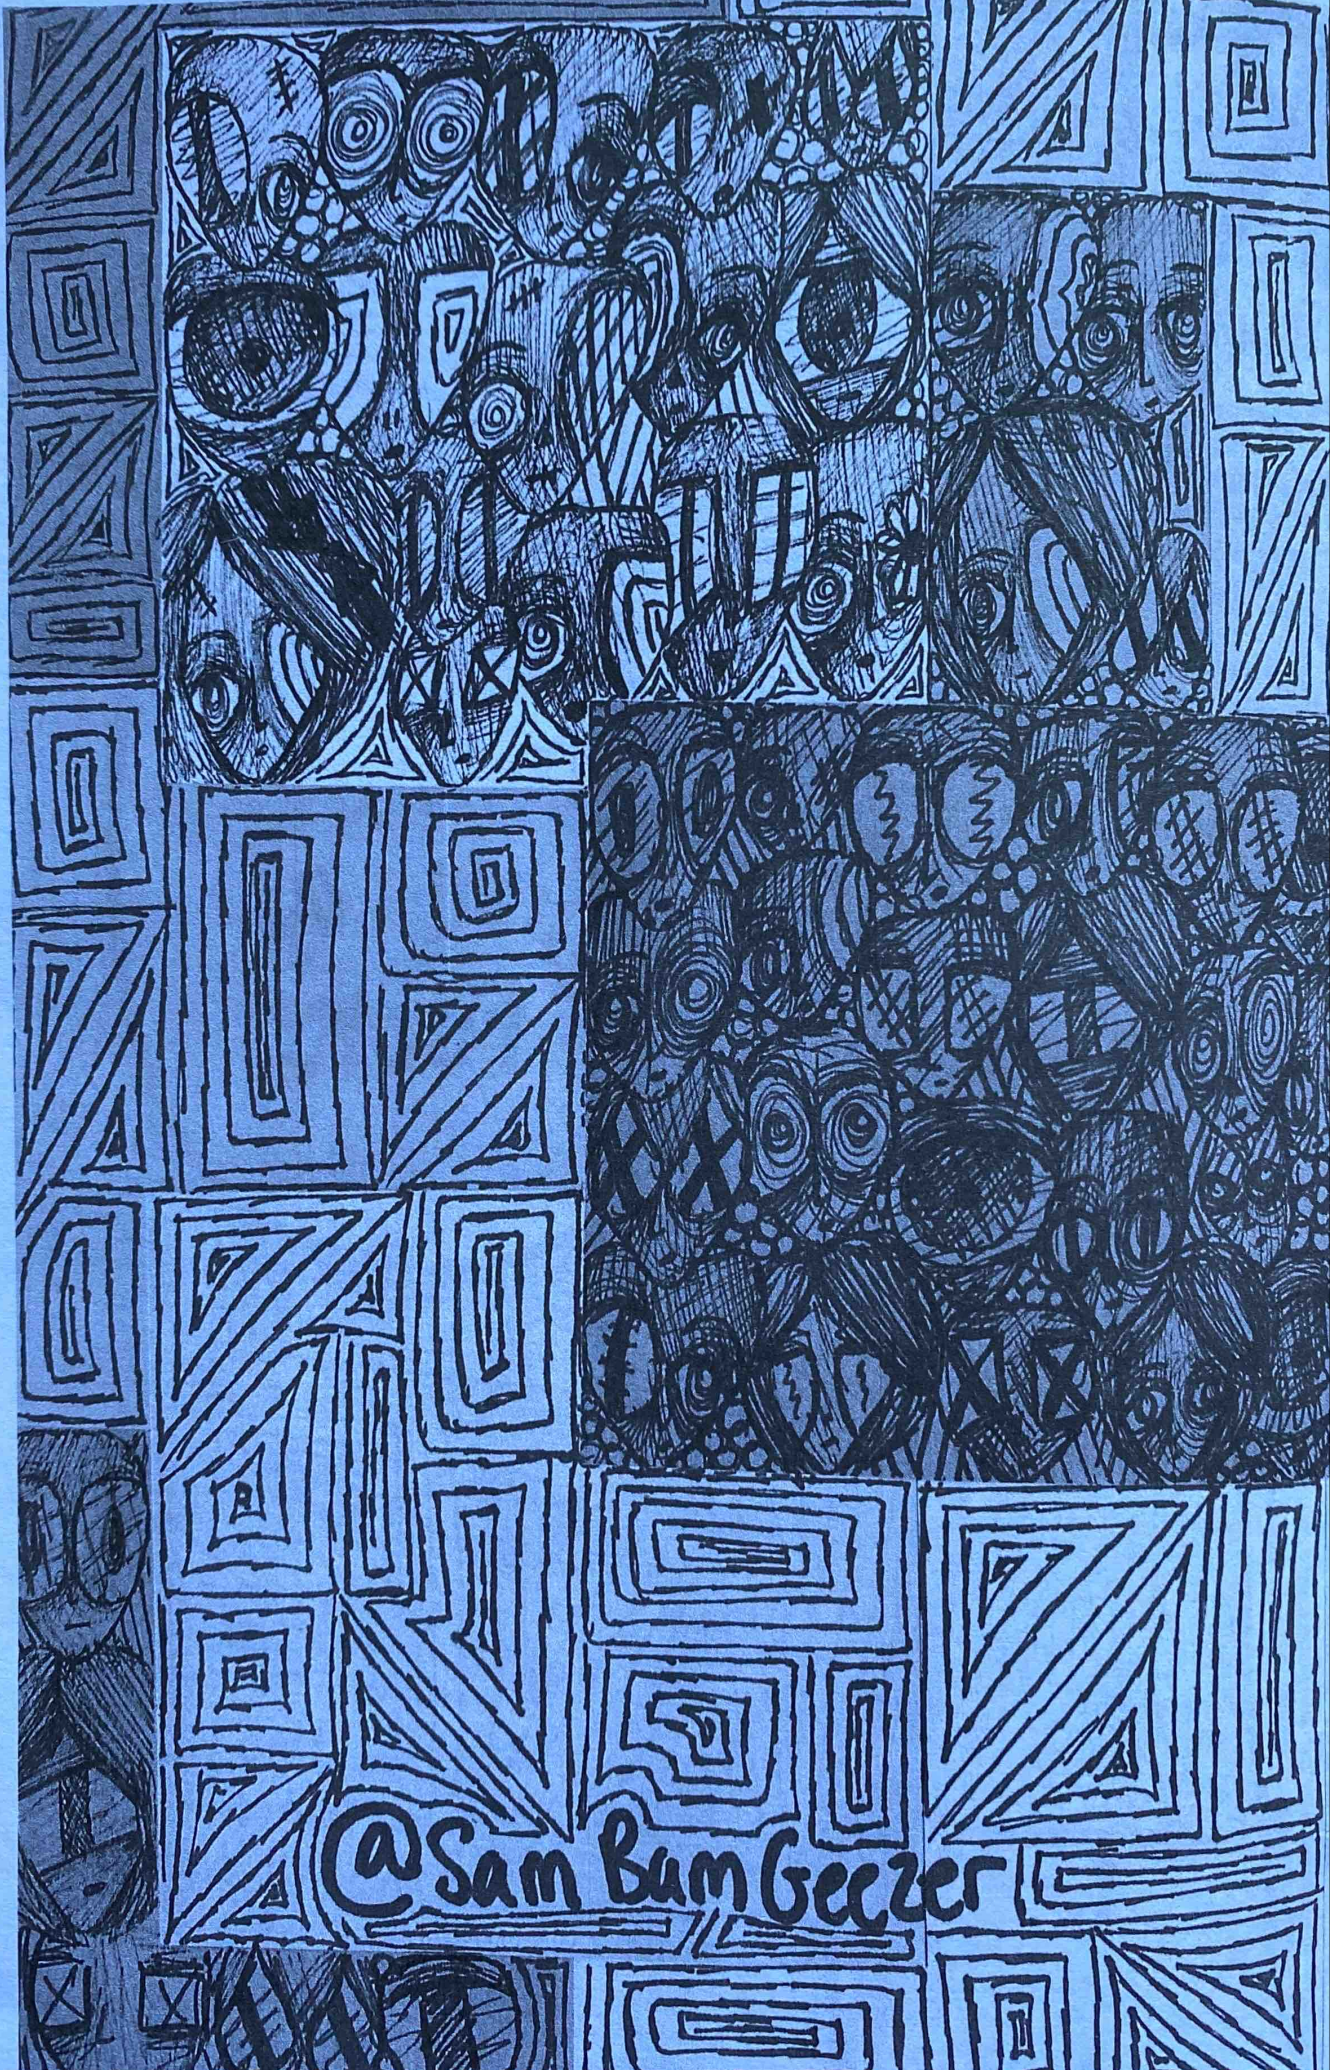

THE SUBTLE ART OF...

- losing myself
- Becoming static
- Trying
- Trying too hard
- Getting lost in my controlled environment
- Focusing on my career
- Forgetting the feeling of being supported
- Working for better relations
- Thinking too much
- Uncovering who I am again
- Being alone
- Undergoing a new phase

I'm trying to not give a fuck.

I thought Creativity was everything, but now I realize it means nothing
