

A photograph of a destroyed building with rubble and a large white text overlay. The image shows a section of a light-colored wall that has been severely damaged, with a jagged, vertical crack and a large pile of debris and twisted metal protruding from the top. Bare tree branches are visible in the foreground and background against a clear blue sky. The text 'THE BULLDOZED FUTURE' is written in a large, white, stylized font across the bottom half of the image, slanted upwards from left to right. The word 'THE' is smaller and positioned above 'BULLDOZED'.

THE
BULLDOZED
FUTURE

What is The Bulldozed Future?

The Bulldozed Future dedicates itself to documenting the ever-changing urban landscapes around Korea. We want to shine a light on the neglected and soon-to-be demolished neighborhoods before they are razed and wiped from people's collective memories.

These images serve in a way as a visual obituary that expresses a variety of feelings from lightheartedness to bleakness, sometimes both at the same time.

Photos shot on 135 and 120 film in between 2018-2020 in Korea.
