

YOU ARE ALIVE

Close your eyes.

The breeze caressing
your cheek?

Have you noticed
the birds in their
nests?

Human bodies themselves
are so interesting,
an entire ecosystem
being driven by a
divine soul.

Treating yourself is
nourishing the body
and feeling the euphoria
of earthly pleasures

We only have
so much time
in this life,
so let's play!

Frolic! Rejoice!
The world is
relearning their
joys!

Life is a precious
thing,

a stream of
endless possibilities,
dreams, wishes, and
manifestations.

Act with love,
receive love.

When you take
care of others,
you take care of
yourself.

We are all
connected,
made from
the same stardust.

whispers

Nature has and
always will be here
for you. Find
comfort in Mother
Nature's gaze, in
her sweetness and
fierocity, you are
always loved.

You are beautiful.
You are wonderful.
Just as you are.

YOU ARE alive
